

About the site...

The San Marco campsite has well-defined and grass pitches, all provided with EEC power socket, water intake and drainage.

Pitches "A" are situated near the sea and are our largest.

The campsite is quite small and for this reason the "B" pitches are not far away from the beach. They are smaller, well shaded and cheaper.

A large area of the campsite has Wi-Fi availability and for those who forget the notebook there is a multimedia kiosk at their disposal.
